PROFESSIONAL SUMMARY

Computer Science Engineering student with a CGPA of 8.98 and practical experience in Python programming, data analysis, and application development. Built an AI Resume Analyzer, Student Management System, and responsive portfolio website. Interested in AI/ML, data-driven solutions, and Python-based software development, with a focus on learning quickly and building useful real-world applications.

EDUCATION

Shri Vaishnav Vidyapeeth Vishwavidyalaya, Indore — B.Tech in Computer Science Engineering | 3rd Year, 5th Semester
CGPA: 8.98 | Expected Graduation: 2028
Class XII: 80% (2024) | Class X: 72% (2022)

TECHNICAL SKILLS

Programming: Python, C, C++, Java, JavaScript

Web Development: HTML, CSS, React, Tailwind CSS

Data & Application Tools: MySQL, Streamlit, PDFPlumber, Git, GitHub

Areas of Interest: Artificial Intelligence, Machine Learning, Data Analysis, Python Development

INTERNSHIP EXPERIENCE

AI Tech Gen Technologies — Python Programmer Intern | 20 July 2026 – Present

- Developing practical Python programming skills through application-oriented tasks and project work.
- Built a Mini Expense Tracker project to practice structured programming and everyday data handling.

Hey Recruiting — Data Analyst Intern | March 2026 – May 2026

- Gained exposure to data analysis workflows, data handling, and analytical problem-solving.
- Worked on improving understanding of structured data and practical business-oriented analysis.

PROJECTS

AI Resume Analyzer | Python, Streamlit, PDFPlumber, NLP, Gemini API

- Developed and deployed a web application that analyzes resumes and provides ATS-oriented scoring and feedback.
- Implemented PDF text extraction, skills matching, and visual presentation of analysis results.

Student Management System | Python, CustomTkinter, MySQL, CSV

- Built a desktop CRUD application with add, view, search, and delete functionality for student records.
- Added dashboard refresh, CSV export, logging, and a graphical user interface for easier record management.

Personal Portfolio Website | React, JavaScript, Tailwind CSS, Framer Motion

- Created a responsive portfolio website to present technical skills, projects, education, and certifications.
- Integrated project links and a structured interface for professional presentation.

Mini Expense Tracker | Python

- Developed a beginner-friendly expense tracking application during the Python Programmer internship.
- Practiced organizing expense records and implementing application logic for personal finance tracking.

CERTIFICATIONS

- Google Gemini Certification for Students
- Generative AI for Beginners — Simplilearn SkillUp
- Introduction to JavaScript — Saylor Academy
- Introduction to Java and Object-Oriented Programming
- Microsoft Python for Beginners series
